

## DAILY NEVADA STATE JOURNAL

C. C. POWING, Editor and Proprietor

## IRRIGATION IN THE WEST.

The committee appointed by Congress to investigate the subject of irrigation in the West has completed its labors. Just what its conclusions and recommendations will be cannot at present be determined. A vast mass of testimony was secured in the States and Territories abutting the Rocky mountains, and this must be sifted thoroughly before definite plans can be formulated for presentation to Congress.

According to the Omaha Bee it is highly probable that the committee will in its recommendations follow the lines laid down by Major W. J. Powell, the noted Government engineer and geologist, whose investigations have extended over a large number of years. Major Powell is perhaps the best living authority upon the arid regions of the West, and is thoroughly conversant with the possibilities of irrigation. His plan, briefly stated, is the construction of storage reservoirs at or near the headwaters of streams, so as to retain and control the vast volume of water which comes from the melting of snow on the mountain sides every Spring and make it reclaim and render habitable a vast section of country. That such a grand public work is practicable there is no reasonable doubt, and it is only a question of a few years before the Government or the States must undertake the work in self-defense. There should be no clashing of authority or interest. None of the Western States and Territories, or all combined, are as well equipped for the undertaking financially as the Government, and none so largely interested. The cost is a trifle compared with the resulting benefits. Even if the Government expended twenty to thirty million dollars, the fact that sum will be returned to the National Treasury from the sale of public lands reclaimed and capable of cultivation. An addition of one hundred million acres of rich but now arid land would be made to the tillable area of the West—an area greater than the State of Nebraska—if a thorough system of irrigation is carried out. The Government can lay the foundation by storage reservoirs; private capital and enterprise can be relied upon to do the rest.

The cultivation of this vast arid belt would add enormously to the productive wealth of the West. Possessed of inexhaustible stores of minerals, fertile valleys and limitless plains, at present useful only for stock, the addition of millions of acres of arid land to the cultivable area through the medium of irrigation would double the population in a few years and make them practically independent of the products of their Eastern neighbors.

Conditions are gradually forcing this question to the front in the West. The roads of sawmills on the timber on the mountain sides exposes the snows of winter to the warm Spring sun. The consequence is rapid melting of the snow and destructive floods in the mountain streams. The relation of this water in reservoirs and its gradual distribution during the Summer season would have averted the disastrous drought which last Summer blighted the harvest in Montana, Idaho and other portions of the northwest.

Maryland Democrats are refreshingly interested in their anxiety to "enforce the civil and political rights of the colored people." The narrowness of their majority in the State shows that something must be done to capture the colored vote. The party has controlled the political destinies of the State for a generation, yet a Lick telescope could not discover wherein the "civil or political rights" of the colored people were enforced. Their right to vote the Democratic ticket, however, was never impaired.

France pays a splendid and deserved compliment to American genius by conferring the Cross of the Legion of Honor on Thomas A. Edison. No man in our day has done so much to control and put into practical operation the potent power of electricity. The compliment paid him by the French Republic will be applauded by every American.

## The University Exhibit.

On entering the Pavilion and turning to the right with the crowd, the first thing to strike the eye is the bright and attractive exhibit of the Agricultural Experiment Station, now a prominent feature of the State University. The three principal divisions—Agriculture and Horticulture, Chemistry and Entomology—are represented, the latter by a large collection of insects, insect poison, and machinery for applying the latter to destroy the former. There are some large drawings also, showing the injury done by some of the worst insects, drawn by the genial Professor Hilman, who is in charge of his department explaining and advising about bugs. Next is the novel chemical exhibit presided over by Professor Phillips, who will tell you that his exhibit contains twenty-three kinds of materials commonly used as food for farm animals, with the exact chemical composition, each represented by the proper amount of each ingredient displayed in bottles above the particular substance in question. In this there is food for reflection, the like of which has not been seen before at our State Fair.

In the Agricultural and Horticultural division there is a large display that will convince one of the effort that Professor Devol, who is in charge of this department, has made to produce a crop on the arid land over which he presides. It is a disgraceful shame that he is compelled to waste his energies upon such soil. There is, however, a creditable exhibit shown so far as variety is concerned, and a good opportunity is presented to compare the various kinds of vegetables shown. This work of the station should be encouraged by all interested in the progress of agriculture.

## J. G. S. AMERICAN ADDRESS

## A TERRIBLE CYCLONE ON A SOUTHERN COAST.

M. E. Conference—The Mohawks in Session—Behind the Bat.

## Hurrah for Blaine.

Special to the Journal.

WASHINGTON, Oct. 2.—Secretary Blaine, in addressing the delegates to the American Congress to-day said in part: No conference of Nations has ever assembled to consider the welfare of the territorial possessions so vast, and to contemplate possibilities of a future so great and inspiring. The aggregate territorial extent of the nations here represented, falls but little short of twelve millions of square miles, more than three times the area of all Europe, and but little less than one-fourth of the globe, while in respect to its power of producing articles essential to human life and to those that minister to life's luxury, they constitute even a larger proportion of the entire world. We meet in the firm belief that at the nations of America ought, and can be more helpful to each other than they now are and that each will find an advantage and profit from an enlarged intercourse with the others. We believe we should be drawn together more closely than by the sympathies of the sea, and that at no distant day the railway systems of the north and south will meet upon the isthmus and connect by land routes, the political and commercial capitals of all America.

## The Washington Election.

Special to the Journal.

CHICAGO, Oct. 2.—H. W. Scott, editor of the Portland Oregonian, now in Olympia, Washington, telegraphs as follows: The Washington Constitution has been adopted by from eighteen to twenty thousand majority. The entire Republican State ticket is elected by from eight to ten thousand. Of one hundred and ten members of the Legislature, in both Houses, the Democrats have not elected more than fifteen. The prohibition and woman suffrage clauses of the Constitution, have been defeated. For the State Capital Olympia is ahead of all competitors and may have a majority over all.

## Behind the Bat.

Special to the Journal.

CLEVELAND, Oct. 2.—Cleveland 2, Boston 1.  
At Pittsburg—New York 6, Pittsburg 3.  
At Indianapolis—Philadelphia 12, Indianapolis 2.  
At Chicago—Chicago 9, Washington 7.  
At Philadelphia—Baltimore 13, Athletics 12.  
At St. Louis—St. Louis 13, Kansas City 5.

## A Terrible Cyclone.

Special to the Journal.

St. Louis, Oct. 2.—Dispatches from the City of Mexico say a cyclone which swept the coast of Campeche last month was so strong in the City of Carmen that trees were pulled up by the roots and thrown up on houses which they crushed like eggs. Twelve foreign vessels were driven ashore, but the number of lives lost is unknown.

## Mohawk Conference.

Special to the Journal.

LAKE MOHAWK (N. Y.), Oct. 2.—The Seventh Annual Mohawk Conference met to-day and nominated General Clinton B. Fisk for President. The principal addresses were made by Indian Commissioner Corgan, General O. O. Howard, General John Eaton, late Commissioner of Education, and ex-President Hayes.

## M. E. Conference.

Special to the Journal.

LOCKPORT (N. Y.), Oct. 16.—The Eightieth Session of the General Conference of the Methodist Episcopal Church met to-day. Bishop Fitzgerald, of Minneapolis, presided.

## Pensions.

Special to the Journal.

WASHINGTON, Oct. 2.—The statement of the Pension Office shows that during the months of July, August and September the original pensions issued numbered 13,660.

## A Card.

RENO, Nev., Oct. 3, 1889.

EDITOR JOURNAL.—Dear Sir:—The following totally false item was published in the local columns of the Reno Evening Gazette in its issue of last evening: Tim O'Keefe and his brother Dan had a personal quarrel last evening which resulted in the former taking a shot at the latter. The cause of the difficulty was not learned.

There is not a word of truth in the item. No quarrel occurred between us two brothers, whose relations have ever been of the most fraternal character from the date of our birth, and will continue so during our mortal existence.

TIMOTHY O'KEEFE,  
DAN O'KEEFE.

## Notice.

On and after July 19, 1889, George Becker, proprietor of the Reno Soda and Bottling works, will sell and deliver in Reno:

Soda, cream and lemon, per doz. . . . \$ 50  
Sarsaparilla, per doz. . . . . 50  
Ginger ale, per doz. . . . . 75  
Sarsaparilla and Iron, per doz. . . . 75  
Pacific bottled beer, per case . . . . 3 50  
Fredericksburg San Jose beer, per case 3 50

## Banking Notice.

During Fair week the undersigned will close their offices at 12 o'clock noon, and open in the evening from 6.30 to 7.30 o'clock.

FIRST NATIONAL BANK,  
BANK OF NEVADA.  
RENO, Nevada, Sept. 25, 1889.

## THE THIRD DAY.

A Big Crowd—Balloon Ascention—Ladies' Tournament—The Racing.

The third day of the Fair was a very satisfactory one in all respects. The weather was charming and the crowd large and good-humored.

The tournament was participated in by Miss Anna Kemler, of Sacramento, Miss Allen, of Churchill, Mrs. Elliott, of Glendale, Miss Nellie Winters, of Washoe valley, Miss Nellie Winters, of Washoe valley, Miss McIntosh, of Reno. The various movements were eagerly watched, and the vast audience enjoyed the riding. The ring-catching feature was something new. The wind-up was a mile dash around the track, Miss Nellie Winters coming under the wire first, the whole thing creating much amusement.

The balloon man made an ascention, but not such a one as he has promised for to-day, when he will make the jump from a height of 3,000 feet.

The district pacing race was a slow one. Frenchy was displaced in the first heat. Prince won in three straight heats, Sam Lewis second. Time—2:37, 2:39, 2:32.

The 2:35 trot was won handsly by Ouida S. Nevada second, Dinah third, Alpha fourth. Rosa M. was withdrawn after the second heat on account of lameness. The race between Edwin C. Little Hope and Victor was won by Edwin C. in very slow time, although Victor took the third heat, because distance was waived, and Edwin C. tried to beat 30, but broke on the homestretch and lost his first place. Time 2:30 1/2, 2:32, 2:33.

SIX RUNS TO DAY.  
The stock parade will take place at 10 o'clock sharp to-day, and will be a sight worth seeing.

The balloon will go up about 1 o'clock if the weather is calm.

There will be six splendid running races, starters as follows:

No. 1.—1/4 mile—Noretta, Painkiller.  
No. 2.—one and one-sixteenth miles and repeat—Dave Douglas, Parole.  
No. 3.—1/2 mile—2-year-olds, C. Haskell, Florence A., Herzog, Ede.  
No. 4.—1/2 and repeat—Rondo, Johnny Allen, Red Hook, Johnny Gray.  
No. 5.—1/2 for maidens—Installation, Lulu B., Condon, Sallie C.  
No. 6.—1/2 dash—G. W., Applause, Johnnie Gray.

At the Play.  
Last night a large audience witnessed the performance of the well-known emotional play "East Lynne" by Isabel Morris and her company. It is needless to say that Miss Morris drew tears to all eyes by her powerful emotional acting as Lady Isabel. Mr. Jack was an excellent Archibald, and Mr. Edmonds a good Francis Levison.

Mrs. Edmonds made a good Miss Carney, Miss Morgan a capable Barbara Hare, Miss Kate Chester a bright Joyce. Mr. DeLano as Lord Mt. Severn Mr. Temple as Richard Hare were good in their respective parts. To-night "The Great Divorce Case," a comedy in three acts, will undoubtedly draw another packed house.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-st-ly.

## WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at all prices? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BROWN'S BLOOD PURIFIER AND SKIN PREPARATION. Every bottle that does not do its work will cost you nothing.

OSBURN & SHOEMAKER, Druggists.

When baby was sick,  
We gave her Castoria.  
When she was a Child,  
She cried for Castoria.  
When she became Miss,  
She clung to Castoria.  
When she had Children,  
She gave them Castoria.

**ROYAL BAKING POWDER**  
Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary brands, and cannot be sold in competition with the genuine. Low test sheet weight, alum or phosphate powder. Sold by all dealers.

ROYAL BAKING POWDER CO.  
100 Wall St., New York.

## MISCELLANEOUS.

## Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which one hundred doses can be taken for one dollar. Larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal action, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its popularity, it is sold in more than 100,000 bottles, and is the most popular of all blood purifiers. Peculiar in its record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadily. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla. Sold by all druggists, at 25 cents per bottle. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar.

## T. K. NYMERS,

TRUCKER, LIVERY, FEED AND SALE STABLE.

## 250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

# RENO!

Is the Railroad Center of Nevada.

# RENO!

Is the Educational Center of Nevada.

# RENO

Is the Healthiest Town in Nevada

# RENO

Is Great, and Alfalfa is King!

The Safest Investment

IN THE STATE

# RENO PROPERTY

Is the Cheapest on the Coast in comparison with that of other cities.

# RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

# RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno. Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

# RENO

Is Supported by the Richest Farming Country of Nevada, Northern California and Southern Oregon

STATE UNIVERSITY.

SUPERIOR EDUCATION AT HOME.

## State University of Nevada,

LOCATED AT RENO.

OFFERS EXCELLENT OPPORTUNITIES TO YOUNG Men and Young Women who desire to obtain a good education. This institution, being a part of the Public School System of the State TUITION IS FREE to all residents of Nevada.

Five Schools, or Departments, Have Been Organized at the University:

1. The School of Mines and Mining Engineering.
2. The School of Agriculture.
3. The Normal School.
4. The Business Department.
5. The Academic Department.

THE SCHOOL OF MINES AND MINING ENGINEERING includes a thorough course of study in Mathematics, Natural Science and the English Language. Graduates of this School will receive the degree of Mining Engineer.

THE SCHOOL OF AGRICULTURE includes the fundamental branches of mathematics, natural science, the English language and observation and experiments connected with the farm and garden. Students in this school will be given an opportunity to defray a portion of their expenses by working on the University farm.

THE NORMAL SCHOOL includes the studies pursued in the Elementary and High Schools of Nevada, the history of education and the theory and practice of teaching. Graduates of the Normal School will receive certificates valid in any Public School of the State.

THE BUSINESS DEPARTMENT includes the study of Arithmetic, Bookkeeping, Commercial Law, Business Forms and the English Language.

THE ACADEMIC DEPARTMENT includes English, Latin, Mathematics and Natural Science. Graduates of this Department will receive the degree of Bachelor of Arts.

The University is equipped with a Library, Geological Cabinet and Physical and Chemical Laboratories. First-class facilities for Amusements will soon be provided.

Facilities in reading, singing, declaiming, essay writing and public speaking is afforded by rhetorical exercises, conducted by the Professors and by the literary societies of the University.

Room rent and good board in respectable families can be had for less than \$25 per month.

S. L. LEE, President

J. D. TORREYSON, Secretary.

## TEHAMA COUNTY,

10,375 27-100 Acres.

Township 25 N, Range 7 W, Mt. Diablo Meridian.

This township lies on the eastern slope of the Coast Range of mountains, and from 13 to 20 miles west from Red Bluff, the county seat of Tehama County. The field notes of the U. S. Surveyor who laid out this township, says "This township is well adapted for grazing, as it affords pasturage for large herds of cattle. It is well watered by the various tributaries of Elder Creek. It is also very valuable for its timber, which consists of a heavy growth of yellow and sugar pine, spruce, and cedar. There is a heavy undergrowth of chaparral, chemical and manzanita. The even sections are in most instances government land, so that the parts most valuable as adjuncts to this range might easily be secured at government price, namely: \$2.50 per acre for single quarter sections.

In Section 9, coal was discovered recently by some herders, but nothing has been done to develop the mine, although samples which have been tested show the coal to be of a first quality. We are assured that a Railroad heading for the Coast, and running through the Coast Range timber belt will be built very near this ranch. Price for the whole, consisting of 10,375 27 100 acres will be \$35,000.

TERMS—One-third cash, and balance in two equal yearly payments. Apply to GREENWOOD & DEWOLF, Owners, No. 415 Montgomery Street, S. F. Or at JOURNAL Office, Reno, Nevada.

## NOTICE.

THE COLLECTOR OF THE RENO Water Company has been instructed to strictly enforce the rules and regulations of the company, and to collect the water rate.

\$75 to \$250 A MONTH can be made working for us. Agents are wanted for the business. Spare moments may be profitably employed, also for vacancies in own and cities. J. J. JOHNSON & CO., 1009 Main St. Richmond, Va. N. B.—Please state age and business experience. Seven cent stamp for 1899.

## THE CALIFORNIA

## POWDER WORKS,

230 California Street, SAN FRANCISCO.

Manufacture and have constantly on hand

SPORTING,

MINING,

and BLASTING

POWDER,

A superior quality, fresh from the mills. It is being constantly received and transported into the country, and is delivered to the consumer within a few days of the time of its manufacture, and is in every way

Superior to Any Other Powder

In the market. We have been awarded

Three Gold Medals

At the MECHANICAL INSTITUTE and the State Agricultural Society for the superiority of our products over all others. We call attention to our

Hercules Powder,

which combines all the force of other strong explosives now in use, and the lifting force of the very

BEST BLASTING POWDER.

This making it vastly superior to any other compound now in use

Circular containing a full description of this powder can be obtained on application at the offices of any of our agents.

around the curve in the cut, and she knew that the train was already rapidly backing up, and that she had not a moment to lose.

Feeling for the lock in the darkness, she then struck it several heavy blows with the ax, which she still retained. Luckily, one of the blows taking effect, the broken lock dropped to the ground. She then grasped the switch lever and attempted to throw it over, but it resisted her utmost efforts to move it.

Mr. W. H. Culpepper says he has a mule that will point birds. He rides the mule when driving partridges into a net and the mule enjoys the sport. The mule, generally, is a very stupid looking animal, but he is not always as big a fool as he looks.—Talbotton Era.
